Red Deer Free Masons Hold Memorial Service.

The Masonic lodges of Red Deer, together with a number of brethren of other lodges, held a most solemn and impressive service in the lodge room Sunday afternoon last, in memory of their most illustrious sovereign, Brother King Edward VII. The lodge room was tastefully draped in black and purple, and in the centre of the room was a catafalque consisting of a rectangular platform, on which were two smaller platforms, representing three steps. On the third was an elevation, on which was placed an urn. A canopy of black drapery was raised over the urn and platform. On the catafalque were laid a pair of white gloves and a lambkin apron. At each corner of the platform was a candlestick bearing a lighted taper, which was extinguished at the proper time in the service.

Perhaps the most impressive part in the whole service was that in which the warden, Saunoy and stewards approached the east and with the worshipful master formed a procession, which moved once around the catafalque, at the conclusion of which the warden placed upon it a bunch of white flowers. A similar duty was performed by the senior warden, who deposited a wreath of white flowers, after the procession had moved twice around the catafalque. The procession then passed three times around the altar and catafalque, after which the worshipful master deposited a wreath of evergreens upon the urn, as a token that the memory of their departed sovereign brother would for all time remain green in the hearts of his Masonic brethren. Each of these officers, while making his tribute delivered an appropriate address. Appropriate hymns were sung during the service, and worshipful master Hey spoke of the brevity of life and of immortality. Chaplains G. W. Green and C. H. Stephenson delivered addresses.

Sports

Red Deer School took a baseball and basket ball team to Lacombe on Friday to try conclusions with Lacombe School. The baseball game started off very exciting and with large scoring each side securing 6 runs in the first two innings. After that the game steadied down and runs were scarce until the 5th and 6th, when Red Deer went wild and allowed Lacombe to get a large lead. But Smith and Northey played a steady game in the pitcher's box and Red Deer batted well, bringing them up even at the end of the 9th. In the 10th innings Red Deer scored one run and Percy Smith, by a bit of good work, kept Lacombe from crossing the plate, Red Deer winning by 17-13. Markle, Northey and Richardson were the best at the bat and Munro played a good game as catcher. The Red Deer team were: pitchers, Northey and Smith; catcher, A. Munro; 1b., Doughty; 3b., Markle; c. f., C. Smith; l. f., Richardson; r. f., W. Syers; s. s. Len Gaetz.

The girls were not so successful in basket ball. The grounds were rough and full of holes, as well as being slippery and it was owing to this that in the latter part of the game Myrtle Smith slipped and sprained her ankle, which has laid her up for a time. The Lacombe girls were better at finding the basket and they scored two or three in short order. Good play was almost impossible on the rough ground but the girls played a strong game and towards the end were pressing hard and we feel sure that if they had had more time, would have evened the score. Olive and Evelyn played a strong game on the forward line, but the centres were not so good as usual. The team were: forwards, Olive Smith and Evelyn Brumpton; centres, Myrtle Smith, Emma Gudmundson, Katherine Miller; defences, Florence Greening and Hattie Hill.

Horn Hill and Clearview football teams clashed for the third time at Clearview on Saturday night. The game was close and hard all the way but Clearview seemed to have the edge. At the having the fastest forward line, F. Domoney played a great game

Work to Commence at Early Date.

All signs point to a decided forward movement in the construction of the Alberta Central Railway. According to the charter, work must start before the first of August. We have it on the best authority that funds have been deposited in a local bank for the construction work. A construction company is being formed and it is said work will commence on the road early in June.

We expect to be able to give out a definite announcement very shortly. The Alberta Central will go westward seventy miles to Rocky Mountain House, and the route is already surveyed. J. T. Moore, ex M. P. P., is president of the company, which has procured 250 acres of land for terminal purposes on the hill south of town. It is supposed to be the purpose of the promoters of the railroad to connect Red Deer with Moose Jaw and continue the line on to the coast through the Yellowhead Pass on a grade of four-tenths of one per cent, which is as good as or better than the Grand Trunk can boast of.

for Horn Hill on the defence, as did C. Quinton. Horn Hill had hard luck when their goal keeper put one in himself, thus allowing Clearview to win by 1-0. Emerson refereed. They play again next Monday. Clearview intend taking a trip to Pine Lake.

The School and Firemen play a friendly game to-night. The Town Football League games will start next Wednesday.

Baseball.

The Baseball team got away to a good start Friday afternoon by defeating the Olds team on their own grounds by a score of 7-6. The game, while not exactly in the National League class, was an exciting one, and clearly showed that Red Deer has the material for a fast team this season and, with two weeks practice, will be able to hold their own with any amateur club in Alberta. Washburn and Turner, who were the battery for Red Deer, showed a thorough understanding of the game and won their own game, their support at times being very ragged. Washburn's pitching will remind old timers of Butterfield style, depending more on control and judgment than trying for strikeouts, and Turner is certainly there with that throwing to second stuff. The score, while close, does not nearly indicate the difference in the teams, and, by rights, Red Deer should have held the score to at least 6-1. This was entirely due to lack of practice in fielding and base throwing which will soon be remedied. Olds made two runs in their half of the seventh, tying the score, and Red Deer had to play their half of the innings. La France singled, Loose got a walk and Hewson smashed out a two bagger bringing them both in with no one out. Only one run counts however, and the game was over as soon as the winning run crossed the plate.

The following is the detailed score:-

	AB	R	H	PO	A	E
Olds	4	1	1	0	1	2
Washburn	4	0	0	0	0	0
Cutten	4	0	0	0	0	0
Davey	4	1	1	1	2	2
Brower	0	0	0	1	1	0
Davis	4	0	1	1	0	0
Sams	3	1	1	1	0	0
Dickson	2	1	0	0	0	0

Olds	0100000	0	4	4	0	0

Summary: Struck out by Washburn 7; by Turner 6; hit by pitcher, Brower 2; bases on balls on Washburn 2; off umpire, 5; left on bases, 4; Red Deer 7; errors none. Red Deer 1, Olds 0. Umpire, W. H. Hanna.

Wholesale House Opening Up.

Stobert, Sons & Co., one of the largest wholesale dry goods firms of the west, with headquarters at Winnipeg, Man., are establishing permanent sample rooms in Red Deer, and have rented the large and commodious flat over the pool room, formerly used as a Masonic hall, from R. C. Brumpton. E. M. Kane, who was the first commercial traveller to make Red Deer his home, is in charge of the stock. Mr. Kane assures us a number of commercial travellers will make their homes in Red Deer in the near future. Let them all come.

School Board

The regular meeting of the School Board was held Wednesday evening last with chairman J. A. Carswell presiding, and R. L. Gaetz, W. E. Payne, F. S. Simpson and secretary M. A. Munro in attendance. Principal McLean's monthly report was read and filed showing a high average attendance of pupils.

The property committee reported that owing to the dry spring it would be well to leave seeding the grounds until the holidays. This was agreed to. A motion was passed instructing the secretary to advertise in the eastern papers for a principal to take the place of Principal McLean, who goes east to complete his studies after the holidays.

A vote of congratulation to the high school football team on winning the Rutherford Cup over all competitors was passed unanimously.

The following accounts were passed: Best Bros., \$14.50; N. Murphy & Co., \$1.00; F. H. Tallman, \$18.15; Town of Red Deer, \$12.80; Cushing Bros., \$2.25; Smith & Gaetz, \$5.55; Gaetz-Corsett Co., \$1.75. Grant to the school sports committee, 1910, \$25.00.

The property committee reported that the old school basement was now fitted up with heating apparatus complete.

The Board adjourned at 10 o'clock.

Memorial Services.

There will be a memorial service the day of the funeral of His late Majesty, King Edward VII., Friday next, at 3 o'clock, in St. Luke's Episcopal church.

There will also be a union memorial service of the other three Protestant churches in the Methodist church at the same time. It was thought to have had all the churches join in the union service but the Roman Catholic church would not promise, Father Voisin stating that he would have to await orders from his superiors.

Gun Club Shoot.

The scores on Monday evening last showed the club to be improving. They were as follows: Parker 21, Stephenson 20, Ware 16, Plaxton 23, Huskins 16, L. M. Gaetz 20, Norway 21, Lund 23, R. L. Gaetz 20. Gold Lund, silver Plaxton, bronze Norway. B class - Randall 16, Crocker 14, Willan 13.

THE VAN SLYKE

BREAKING PLOW.

The Van Slyke Breaking Plow Co. will commence the manufacture of what is known as "The Van Slyke Breaking Plow" in Red Deer. An electric plant is being installed, which will run day and night to satisfy the increasing demand. There are now considerably over one hundred plows ordered, comprised of four horse, six horse and steam outfits. These orders are distributed in many towns, Wetaskiwin, Stettler, Didsbury, Ponhold, Olds, Innisfail and Lacombe.

The Advantages of this Sulky Plow are:

- 1.-Break brushland, prairie and stubble. Furrows never turn back or kink.
- 2.-The draft of the plow is fully one third less than other plows on the market.
- 3.-Guaranteed to scour gumbo land.
- 4.-It works well in stony land by changing in center.
- 5.-Much more durable than other plows as it is constructed of solid steel.

Farmers will not be consulting their own interests if they do not look into this proposition before purchasing elsewhere.

Apply Zim-Buk to all wounds and sores and you will be surprised how quickly it stops the smarting and brings ease. It covers the wound with a layer of protective balm, kills all poison germs already in the wound, and prevents others entering. Its rich feeling, herbal essences then build up the system, fresh blood is fed in a wonderfully short time the wound is healed.

Some believe Halley's comet's tail is intensely hot. But this heat must be thinly distributed, owing to the filmy character of the tail. Moreover, the earth has an enveloping blanket of cool air to save it. The foundryman can wet his finger and plunge it safely into molten iron. The air blanket would not take a water jacket. There is a chance that we won't touch the tail at all. At any rate there seems little danger of any harm to come to us of the earth. The thing to do is to hold tight, don't lose courage, and keep your eyes open. For you're likely to see things you can't tell about to your grandchildren.

To-day, May 18th, many of us earth beings may witness a sight, the like of which has never before been seen by man, at least since men have kept a written history of events. For over three hours we shall be viewing the sun through the great blazing

head of a comet.

Of a sudden, our earth, swinging through space at 65,000 miles per hour will plunge into the tail of Halley's comet, close to the neck of it. The tail will have been whipped against us at its own speed of 105,000 miles an hour. Thus this globe will dive through the luminous haze at a total speed of 170,000 miles per hour, 47 miles per second, the earth entirely immersing itself in the celestial mist in less than three minutes, yet so thick is the tail at the point of perforation—600,000 miles—that we shall be nearly three and a half hours passing through.

What will happen? No two scientists agree in detail. They are, however, practically certain that there will be no harm done to any creature of the earth, save the harm which fear does.

Local and General

Forrester & McDonald shipped two car loads of fine horses to Sedgwick Wednesday.

W. B. Cairns, of the Merchants' Bank, enjoyed a pleasant visit from his father a few days ago.

G. A. Porter, formerly of Red Deer, is now living in the Soldiers' Home, Los Angeles Co., Cal.

The C. P. R. will give special rates of fare, and one third for Victoria Day, extending from the 21st to the 26th.

W. Huekins' little daughter Winifred stumbled over her pet dog Wednesday evening last, and broke her collar bone. She is doing nicely.

E. A. Bryan has sold his fine team of general purpose horses to McMillen, of Edmonton, receiving \$415 for them. The team was worth it.

The first Alberta Branch meeting of the Woman's Missionary Society of the Methodist Church will meet in the new Methodist church, Red Deer, on Wednesday May 25th, at 2 o'clock, continuing throughout Thursday, also Friday morning. The public will be welcome at all the sessions.

Price & Walls, Claresholm, shipped five cars of cattle from Red Deer on Thursday, bought from the Co-operative Association. The prices ran 5-1-4 and 5-1-2 cents for good steers, and 9-1-2 cents for hogs. Capt. Keast brought in a nice lot of fine, smooth, 1,400 lb. animals, and J. J. Gaetz and Peter Reid had the big lots with 51 and 21 respectively.

F. R. Pettepher was a very heavy loser by fire sweeping over the whole of his valuable timber limit 90 miles west. The fire spread from the Medicine river valley. It went over a corner of the Martin-McDougall limit. Mr. Pettepher estimates that the value of his limit would have been \$200,000 when the Alberta Central West had been constructed. He complains strongly of the lack of fire rangers in the district.

Capt. F. S. Reeve, of Wiarton, Ont., who has been looking over the country, has taken a section of land near Castor. He was accompanied by several friends from Toronto. Mr. Reeve left for Red Deer Thursday, before leaving he spent \$1,400 in Red Deer for cattle, implements and hardware. He is an old friend of M. P. McCall's and dropped off to see him by invitation. If Mac has a car load or two of such friends we hope he will have them all stop off at Red Deer and they will all be welcome.

THE LATE KING.

King Edward VII will be laid to rest on Friday. His works will follow him. As a great king, he has filled his niche in the world's history. As the head of greatest nation on earth, his voice was always for peace, and the Master's words, "Blessed is the peacemaker," will ring down through the ages. His last words were a prayer to his Creator as much as to his subjects; "Well, it is all over, but I think I have tried to do my duty." Could any subject of this great empire have desired him to say more? The nations mourn with us. Never in the history of the world has a more spontaneous wave of sympathy swept over the universe. Canada mourns with Britannia, and this great West extends its sympathy to the bereaved Queen-mother and royal family.

GOD SAVE THE KING.

George V comes to the throne in perilous times. But he is a worthy sovereign of true kingly stuff. Little known but what is known is good. He has been reared in the pure air of the court of Victoria. As a man he will rise to the grave responsibilities which rest upon him, and when opportunities arrive he will meet them like a true Briton and a son of a noble race. He has in his consort a noble woman, one who will be a great help to him, and who has long had, as a sweet English girl, the hearts of the nation. Both King George and Queen Mary may be depended on to serve their country well.

RED DEER'S GROWTH.

All eyes in the Province are turned on Red Deer. It is considered of men who know, men who are on the inside track, men who are in touch with the entire machinery of the Province that nothing can prevent Red Deer becoming a big city. The C.P.R.

are behind the Alberta Central, without doubt, and they will push the line west to the Yellowhead Pass and through to the coast. They will also build east to connect with the main line at Moose Jaw. The C.N.R. have more in store for Red Deer than many suppose, and we have it on pretty good authority that they may build shops here. Our magnificent water power assures us a great future. Camrose and other towns away from water and natural sewerage may be boomed but they can never be great cities, lack of water is a great drawback. No great city in the world can be found away from water. Our geographical position makes our progress an assured fact. Railways must come here. We are in the centre of this great province and the finest mixed farming country in the Province. Everything points to the greatest forward movement in the history of the town and it cannot come too soon.

EDITORIAL NOTES.

Watch Red Deer grow.

Red Deer with six railway lines running out of it, is the latest slogan.

Red Deer will likely double its population by the end of next year.

E. Michener, who was in Calgary last week, says everybody is talking of Red Deer.

Calgary real estate men, realizing the great prospects ahead of Red Deer, are investing here and will have several sub-divisions on the market in the near future.

Hardly a day passes but real estate stiffens in town. Some properties have doubled in the last month.

The Alberta Central Construction Company will be formed in a few days and will start work on the road probably next week.

QUEEN MOTHER'S MESSAGE TO SUBJECTS OF EMPIRE.

QUEEN ALEXANDRA

London, May 10th.—To-day Queen Alexandra sent out an appeal to the people reading as follows: "From the depths of my poor, broken heart, I wish to express to the whole nation and our own kind people we love so well, my deepest thanks for all their touching sympathy in my overwhelming sorrow and unspeakable anguish. Not alone have I lost everything in him, my husband, but the nation, too, has suffered an irreparable loss by their best friend, father and sovereign thus suddenly called away. May God give us all his divine help to bear this heaviest of crosses which he has seen fit to lay upon us. 'His will be done.'"

Judicial Sale of Farm Lands, Near Penhold, Alberta.

Pursuant to judgment and final order for sale, there will be offered for sale by Mr. Frank Mott at the Court House, Red Deer, on Thursday, the 24th day of May, 1910, at 12 o'clock noon, the South East quarter of 30-36-25, West of the Fourth Meridian. The land contains 100 acres more or less and lies ten miles from Penhold Railway Station. There is a school on the corner of the land. The surface is rolling and hilly. One Hundred acres consists of bluff, scrub and some prairie. The land has been fenced. The sale is subject to a reserved bid which has been fixed by a Judge.

prayers, which will comfort and sustain me in all that I have to go through. Let me take this opportunity of expressing my heartfelt thanks for all the touching letters and tokens of sympathy I have received from all classes, high and low, rich and poor, which are so numerous that I fear it would be impossible for me to thank everybody individually.

"I confide in your care my son, who, I know, will follow in his dear father's footsteps, begging you to show him the same loyalty and devotion you showed his dear father."

"I know my dear son and dear daughter-in-law will do their utmost to merit and keep it."

(Signed) "ALEXANDRA"

The purchaser is, at the time of the sale, to pay down a deposit of 10 per cent. of the full purchase price to the vendor's solicitors, and the remainder as follows:—

A sum sufficient to make the unpaid balance 40 per cent. of the full purchase price, is to be paid into Court within sixty days without interest. The said balance of 40 per cent. may be paid into Court within sixty days without interest or may be secured by a mortgage on the property in favor of the vendor, payable in three years and interest at 8 per cent. per annum, payable half-yearly.

In other respects the terms and conditions of sale will be the standing conditions of the Supreme Court of Alberta. For further particulars apply to Messrs. EBBETT, NEWELL & BOLTON, Barristers, Edmonton, Alberta.

"He was an eccentric, one of our peculiarities involved the securing of valuables in odd places. He had no faith in banks. Among these valuables were the Burgoyne family jewels—quite a treasure, believe me, Mr. Kirkwood. We found no one of them among the collector's papers and with out Dorothy were powerless to pursue a search for them. We advertised and employed detectives, with no result. It seems that father and daughter were at Monte Carlo at the time."

"Beautifully circumstantial, my dear Mr. Kirkwood. But I don't fit into your conclusions. I have been maintained consistently, a pose of impenetrable gullibility."

"This afternoon for the first time we received news of the Calendars. Calendar himself called upon me to beg a loan. I explained our difficulty, and

"Seotland Yard," he told her bluntly.

he promised that Dorothy should see the information by the morning's post. When I inquired he agreed to bring it himself after dinner this evening. I make it quite clear," she interrupted, a little anxious.

"Quite clear, I assure you," he answered encouragingly.

"Strangely enough, he had not been gone ten minutes when my son came to from a conference with Earl's solicitors, informing me that at last a memorandum had turned up, indicating that the heirloom would be found in a safe secured behind a dresser in Colonel Burgoyne's bedroom."

"At No. 9, Frougall street."

"Yes, I proposed going there at once, but it was late, and we were dining at the Pless with an acquaintance."

"But, Mr. Kirkwood, when I now recall as a former inmate of George Calendar, to our surprise, we as Calendar and his daughter at a table not far from ours. Mr. Mulready betrayed some agitation at the sight of Calendar and told me that Scotland Yard had a man out with a warrant for Calendar's arrest on old charges. For old sake's sake, Mr. Mulready begged me to give Calendar a word of warning. I did so foolishly, it seems Calendar was at that moment planning to rob us, Mulready aiding and abetting him."

"The woman paused before Kirkwood looking down upon him. "And so," she concluded, "we have been tricked and swindled. I can scarcely believe it of Dorothy Calendar."

"I, for one, don't believe it," Kirkwood spoke quickly rising. "Wherever the culpability of Calendar and Mulready, Dorothy was only their hoodwinked tool."

"But, Mr. Kirkwood, she must have known the jewels were not hers."

"Yes," he assented passively, but wholly unconvinced.

"And what," she demanded, with a gesture of exasperation—"what would you advise?"

"Scotland Yard," he told her bluntly.

"But it's a family secret. It must not appear in the papers. Don't you understand? George Calendar is my husband's cousin."

"I can think of nothing else unless you pursue them in person."

"But why?"

"That remains to be discovered. I can tell you nothing more than I have said. I thank you for your hospitality, express my regrets that I should not willingly have been made the agent of this disaster and wish you good night. Mr. Kirkwood, good morning, Mrs. Hal-

"For a moment she held him under a calculating glance, with his eyes fixed on her face. Then, realising that he was determined not by any means to be won to her cause, she gave him her hand, with a common place wish that he might find his air-fairer in better order than seemed probable, and ran for her life."

The hunter showed him out.

"Well," appreciated Mr. Kirkwood with gusto, "she's got Annales and Supplis talked to a standstill, all right!"

"He remained over this for a moment. "Calendar could do no worse than hardly with his picture-book touch. Uncommon ingenious, I call it. All the same, there were only about a dozen bits of little things that fit into his mosaic a little bit. I think they'll all tangle with the same stick-all but the girl. And there's something about a long silver chain and a diamond necklace that shilling-shilling of madam's Dorothy Calendar's got about as much active part in it as I have."

"I'm only from California, but I've got to show me before I'll believe a word against her. Those infernal secondaries! Somebody's got to be on the girl's side, and I seem to have drawn the lucky straw. Good heavens! It is possible for a grown man to fall over head in love in two short hours? I don't believe it. It's just interest—nothing more. And I'll have to have a change of clothes before I can do anything further."

He strode across town as directly as might be to St. Pancras station. It would undoubtedly be a long walk, but he was prohibited by his straitened means, and the buses were all filled and wouldn't be safe for hours.

He strode along rapidly, finding his way more through intuition than by observation or familiarity with London's geography—indeed, was scarcely aware of his surroundings, for his brain was big with the imagery, rapid in a glowing dream of knight errantry and chivalric deeds.

CHAPTER XIII.

KIRKWOOD wasted little time. He had not much to waste here he to do that afternoon when he doing he had set his heart. It took him some time to have to lose the valuable moments demanded by certain imperative arrangements, but his haste was such that all was consummated within an hour.

Within the period of a single hour, then, he consumed his luggage at St. Pancras, caused it to be loaded upon a four wheeler and transferred to a neighboring hotel of evil flavor, at moderate tariff, where he engaged a room for a week, ordered an immediate breakfast and retired with his belongings to his room. He had shaved and changed his clothes, selected a serviceable suit of heavy tweeds, stout shoes, a fore and aft cap and a negligible shirt of deep shade, calculated at least to give him a long time.

Finally he had devoured his bacon and eggs, gulped down his coffee and turned sick, set off foot in the still dim glimmering of early day.

By this time his cash capital had dwindled to the sum of £108 8d. and he had been given notice that he had paid for his lodging in advance.

At King's Cross station on the underground an acute disappointment greeted him. There likewise he learned something about London. A sympathetic bobby informed him that no train would be running until half 5.20 and that, furthermore, no buses would begin to ply until half after 7.

"It's tramp it or cut it, then," mused the young man mournfully, his longed-for gear seeking a nearby cab mark just then occupied by a solitary hansom, driver somnolent on the box.

"Outraged," he again addressed the pole-vaulting, minor of the English nation, "When I doubt ask a bobby?"

"Officer, when's high tide this morning?"

The bobby produced a well worn pocket almanac, moistened a massive thumb and tipped the pages.

"London bridge," high tide twenty minutes after 8, sir," he announced, with a glow of satisfaction wholly unbecomingly of one who combines the functions of pre-arranging almanacs, guidebook, encyclopedia and conservator of the peace.

RAYWINHEIMER & SONS, Red Deer, May 3.

The Red Deer Creamery.

Mr. Editor:—On the first of May the Association took over the management of the creamery from the Government. May I ask for a little space in your paper to explain to the people and farmers of Red Deer the conditions under which we are now working.

Our butter is shipped weekly to the cold storage at Calgary, where it is graded, and we receive an advance of 50 per cent of the market value according to its grade, 1 or 2, no. 1 grade having a premium of 2 cts. per lb. over no. 2, and as our butter graded 90 per cent no. 1 last year we hope for a decided improvement in the price.

We buy our supplies, such as boxes, wrappers, liners, salt, etc., through the Commissioner, and pay for them out of the 20 per cent retained by him from the selling price of the butter, the surplus coming to us in a balance cheque at the end of every season, May and November 1st.

It is as far as our connection with the Government goes. The operation of the creamery, paying for fat, labor, fuel, cream hauling, etc., being undertaken by the Association. The cheques for butter fat will be issued every four weeks, beginning May 28th, and will be payable at the Canadian Bank of Commerce, Red Deer.

Commencing the first week in June, all cream will be graded as received at the creamery, a sample of each lot being taken for the purpose for each patron. Grades 1 and 2 will be entitled to a premium of 2 cents per pound of fat in the advances payments, 3, 4 and 5 will not be entitled to a premium, but will receive only the regular advance. No. 1 is a pure, clean, sweet cream. No. 2 is pure, clean, good flavored cream, not sweet, capable of making no. 1 butter. Nos. 3, 4 and 5 are heated cream, curdy cream and poor flavored cream. Flavor counts for more than anything else, therefore bad flavored or curdy cream is not accepted.

Red Deer, with Timidist, stood at the head of the list of Gov't creameries, with 90 per cent no. 1. Some other creameries had as low as 10 per cent. We all had to take the average price for the whole, hence the premium for good cream. We find our customers ready to pay the top price for a no. 1 article. And our present plan gives the price to those who enable us to earn it.

A few simple rules followed out will give every patron the premium, and we want to give it to each one. Clean and scald the separator every time it is used, never use rusty tinware, rust kills flavor every time. Cool the cream at once down to 50 degrees if you can, water will cool it and keep it cool. Never mix warm cream with cold, that will give it a bitter flavor; cool it first. These few rules, with what you already know of cleanliness, will give you no. 1 cream, and it is worth it. Our butter is selling for 7 cents per lb. more than this time last year.

Butter is 45 cents per lb. at Winnipeg and the T. Eaton Co. had to bring in two tons from Minneapolis to supply their customers, paying 40c, duty and \$2.60 express, and has ordered a car from Montreal, paying a high price. The Dairy Commissioner has had offers of 24c for half a million pounds, but could not consider it, not being able to supply his regular customers, and there is more, much more, of the same sort of information which points to good prices for all the butter we can make.

We want every farmer who believes in co-operation to help us make Red Deer the Banner Creamery of Alberta, and we also desire the support and good will of the town.

Thanking you, Mr. Editor, I am yours, E. CARSWELL, Sec., Red Deer Creamery

Whirlwind Three Weeks.

Characterized the Dying Days of the Parliamentary Session.

Ottawa, May 10th.—The last three weeks of the parliamentary session were whirlwinds. The dying days showed the real strength of Opposition and particularly of the leader, Mr. R. L. Borden. They also disclosed the weakness of the Government. Sir Wilfrid Laurier must have longed for some of that support which brought him into power. To-day, the only real help he gets is from Hon. W. S. Fielding, yet the inactivity of the Minister of Finance often makes matters worse instead of better. Outside of him there is nobody. Mr. Borden and Mr. Patterson were never really big men, and to-day they are back numbers, without a doubt. Sir Frederick Borden prefers the outside of the House to the inside; Mr. Emmerson is openly against the Government on many issues; Mr. Graham is too busy to do more than look after his own department; Mr. Aylesworth cannot

hear what is going on, and has frequently gone on with a discussion upon a subject which he imagined was before the House, but was not; Mr. Lemieux is no debater and doesn't pretend to be; Mr. King is green; Mr. Jacques Bureau is a joker; Mr. Sifton has left his chief staff, and has come out against him on natural resources issues; Mr. Oliver is too ignorant on general questions to be of general use; while Mr. Pugsley is described as the Jonah who must be thrown overboard to save the ship.

Of course it is natural that a party that has been in power so long should become weakened with losses. It is the fate of political parties as well as of individuals. Sir Wilfrid himself is far from being the man he was and it is understood that he would gladly go into retirement to spend quietly the evening of his days if there was anybody to whom he could entrust the destinies of the Liberal party. Nobody would make a premier, and there is also the uncompromising attitude of Quebec against him. Quebec alone keeps Laurier in power. With Quebec against Fielding, the Liberal party is defeated if he should be appointed leader, and if there is nobody else Mr. Fielding's equal in the cabinet.

The French-Canadian Liberals are putting forward the claims of Sir Lomer Gouin, premier of Quebec, to be brought in as Sir Wilfrid's successor. The suggestion has been made by some that the Liberals in other parts of Canada will not stand for another French-Canadian leader so good, but the reply is reasonably given, "They'll have to stand for another." Quebec is naturally conservative, and we can't win there unless the leader of the Liberal party is a French-Canadian.

The weakness of the Government, therefore, gave great zest to the Opposition, and, led by Mr. Borden, they fought splendidly. As one member remarked to your correspondent, "If only the people of Canada could see in turn be brought into the galleries for an hour we would win the next election without issuing a campaign pamphlet."

Some of the Opposition members were unable to restrain their excitement, and they cheered and roared themselves hoarse for Borden as he rose to great heights of eloquence, and rendered the Government absolutely unable to reply to his criticisms of loose expenditures, the sale of Canada to the United States on the tariff, too refusal to help Great Britain's line of defence of the Empire, and similar warfare with which the people of Canada are familiar. It gave great spirit to the members and they have gone back to their constituencies confident that the public have awakened to the fact that their interests have been sacrificed and that a clean, honest party, that has fought long in opposition for the rights of the public, will be placed in charge of this country's affairs at the next election.

Along the Lobstick Valley

J. A. Brickell, who has been laid up several weeks with rheumatism, is improving slowly. Some effort ought to be made to have a school in this district. How about it, you old bachelors?

Everybody is nearly done seeding. Some are seeding potatoes. Not so bad for this country. Bro. Durbin emphatically denies the report that he is about to be married. So we take it all back.

A petition is being circulated for a post office in this township. We wish the petition success. Let everyone who is interested in the welfare of his township sign it.

A. Elliot is doing his best to increase the population of this township (as far as bringing in settlers is concerned), he brought in two in the last three weeks. Good, bring some more, Bro. Elliot.

Messrs. Wm. Hart, W. Hart, and Mosher visited A. Du Perrier last week. The two last named decided to settle along the Lobstick. They think that the country is great. Unsurpassed in our opinion.

Considerable damage has been caused recently by the prairie fires around here. J. Reid, while cleaning land and burning some brush, lost control of the fire, which resulted in the loss of his two barns, and it was only by the heroic efforts of two of his neighbors that he managed to save his house and one horse that was in the stable at the time, also several thousand feet of lumber in his yard. It is too bad that people will set out fire at random, regardless of what it may destroy. This not only destroyed valuable timber and property, but also all the grain for some time, and as feed is scarce in this township, it will result in the suffering and death of a good many head of cattle.

"Jane" was repeated by the Red Deer Amateur Dramatic Society, under the management of Mr. Hey, on Thursday night, in aid of the Hockey-Basket Club, and the production was even better, if possible, than before. An additional feature was the presence of the Red Deer orchestra, who played the overtures and between the acts. The orchestra showed themselves fully equal to any city organization and are a credit to the town. The Hockey-Basket Club wish to tender a hearty vote of thanks and appreciation to the Dramatic Society for their efforts on behalf of the club, and also to the orchestra, whose services were given entirely free of charge. They also wish to thank Messrs. Beck, Lord, Brumpton, Snell and Humber, who kindly loaned the furniture, etc., used on the stage.

They Just Hate the Thought of Wearing Glasses

Many, many people tell me that, so I am convinced that there are many who are deterred from wearing glasses through fear that glasses will be prescribed whether they are needed or not. That is not my way of doing. If I find persons worrying unnecessarily about their eyes, I advise them to think of something else and wouldn't give them glasses if they wanted them. However, where painful or distressing conditions of the eye exist, it usually means that an error of refraction exists which can only be cured by properly adjusted glasses. If you have doubt of your condition, I will remove the doubt, either with or without glasses.

We have examined the bridge over Waskasoo Creek with Mr. Miller, Engineer, and recommend that a new plank covering 2 or 3 inches thick be put on this at once. While this bridge is too narrow we do not feel justified in recommending the building of a new one this year. The bridge with the exception of the plank covering is in good repair. A new bridge about double the width of the present one will cost about \$2,000. If the railway development we expect within a year, or two it will be necessary to have a bridge there the full width of the street, and it appears unwise to build a smaller bridge at the present time. We recommend that money by-laws be submitted to the ratepayers as follows:

Purchase and installation of new pump \$4,000-20 years 5 per cent, annual payment, \$320.97.

Cement sidewalks, Town's share of cost, \$5,500-30 year 5 per cent, annual payment, \$357.78.

Plank sidewalks, grading, fire hose, \$3,000-5 year 5 per cent, annual payment, \$692.52.

Isolation Hospital and Office Building, \$1,500-10 year, 5 per cent annual payment, \$194.20.

There is enough money to the credit of the waterworks and sewer construction accounts to pay for the work contemplated. As the repayments of debenture principal this year amounts to \$2,443.11, the city will have very little increase of the debenture debt, and the first repayment for all these will be next year. This year we retire one debenture the annual payment on which is \$800.00, and next year we retire another with an annual payment of \$628.89.
